

## 30 Blamey Street... AVENELL HEIGHTS QLD

5  1  2 

This magnificent 1976 model would have almost certainly been constructed for the 'upper class' of the day. In my opinion homes constructed in the 70's, especially the executive builds, are some of the most solid, sturdy, long-lasting yet low-maintenance homes around.

This is your chance to secure this recently refurbished and immaculately maintained executive home nestled on a sprawling 1009m<sup>2</sup> corner allotment. Where possible all original light fittings, pelmets, built in cupboards, door handles, tap fittings, floor and wall tiles have been preserved. The property has been so well maintained the bathroom is almost entirely original. If you like the popular 'retro look' then this home is for you.

Spacious loungeroom with sandstone feature wall, fireplace and double glass sliders flowing to the front

**Price** : \$ 380,000  
**Land Size** : 1009 sqm
